

**Work programme of the CEEWEB Natura 2000  
Working Group for 2006**

**as agreed at the Natura 2000 WG meeting in the framework of  
CEEWEB Annual Meeting**

Gornja Toplica-Banja Vrujci  
Serbia and Montenegro  
15<sup>th</sup> November 2005

**1. Establishing a network of national focal persons** in each country where CEEWEB is represented. They have individual responsibility, and do clearly measurable work (following up and getting involved in national Natura 2000 process) for which the WG has a budget of 1000-2000 Euros / year / country. Each of them should write a report at the end of 2006. There will be a **publication** on Natura 2000 implementation, based on the reports.

Organisations in charge:

Slovakia: BROZ

Poland: Naturalists Club Poland

Serbia: Young Researchers of Serbia

Hungary: CEEWEB Policy Office

The rest of the countries are undecided yet, it would be favourable if members could agree on it on national level, especially if more than one NGO per country are members of the Natura 2000 WG.

**2. Seminars** in Romania and Bulgaria: exchange of experiences about Natura 2000 preparation between NGOs from EU and accession countries (separate national gatherings).

Another seminar for EU candidate and potential candidate countries will be hosted by BROZ.

**3. Cooperation** with IUCN, WWF, BirdLife (NGO shadow monitoring, publication)

Participation in EHF and EEB meetings

Possible joint meeting with CEEWEB Agri-environment Working Group

**4. Newsletter:** main topic of the September 2006 issue will be Natura 2000. The WG will provide articles.
