EUROPEAN URBAN GREENING NEWS

EUGIC 2017 BUDAPEST LAUNCHES TODAY

EUGIC – the European Urban Green Infrastructure Conference – where built environment professionals meet to celebrate greening cities

Following the success of EUGIC 2015 Vienna, EUGIC 2017 Budapest launches today.

Around the world, towns and cities are working with nature to adapt to climate change and create healthy, resilient and prosperous 21st century urban communities.

EUGIC 2017 Budapest brings together some of the leaders in the field of urban green infrastructure from across Europe and the world to share experience of working with nature to deliver livable cities.

EUGIC 2017 will attract over 300 participants to the cutting edge Akvarium venue in the centre of beautiful Budapest – one of the most stunning capitals in Europe, **on November 29-30.**

EUGIC 2017 Budapest is delivered by CEEweb for Biodiversity, the leading central European biodiversity network, and Livingroofs.org founded by Dusty Gedge, President of the European Federation of Green Roof and Wall Associations.

EUGIC 2017 is hosted by the City of Budapest.

EUGIC 2017 Budapest is supported by the European Union, allowing us to keep ticket prices low for this popular 2-day international event – [tickets are on sale now.](#)

EUGIC 2017 already has great partners. There are many opportunities to partner with us, including exhibiting, presenting ideas and showcasing projects.
