

WEB DEVELOPER

job description

Company Introduction

The mission of CEEweb for Biodiversity is the conservation of biodiversity through the promotion of sustainable development.

CEEweb for Biodiversity works through advocacy, influencing decision making, common projects, capacity building, networking and awareness raising.

It targets its members, local, national and international decision makers, NGOs and NGO networks, companies and the scientific community.

We are organizing Green- Go Short Film Contest every year since 2011.

Job Description

We are looking for a Web Developer responsible for coding, maintaining and modifying our two websites (www.ceeweb.org; greengofest.eu; ceeweb.org/stcdb) and creating new pages for later projects.

This is a subcontract position (not full time), the amount of work will vary depending on the dynamics of on-going projects.

Responsibilities

- Design of the overall architecture of the website
- Implementation of security and data protection
- Integration of the front-end and back-end aspects of the web application
- deciding on the best technologies and languages for the project
- testing sites and applications in different browsers and environments
- problem solving
- fixing bugs in existing projects
- meeting designers, developers and project staff for progress updates

- creating new pages for later projects (similar to this: <http://www.ceeweb.org/interactive-map/>)

Current tasks

- from the 1st of October: uploading short films to greengofest.eu and programming the voting system, ensuring that cheating is as impossible as it can be, closing down the contest etc.;
- uploading new members to the [map on the website](#);

Skills and Qualifications

- Excellent knowledge of PHP5+, MySQL, JavaScript, CSS and HTML5, and experience with libraries like jQuery.
- Experience with Wordpress, Wordpress plugins.
- Understanding differences between multiple delivery platforms (such as mobile vs, desktop), and optimizing output to match the specific platform.
- Data migration, transformation, and scripting.
- Understanding of fundamental design principles behind a scalable application.
- Basic knowledge of image authoring tools, ability to crop, resize, or perform small adjustments on an image.

How to Apply?

Send your CV, portfolio and short motivation letter to the following address: office@ceeweb.org. Please send us also your bid for an hourly rate requested. Applications will be considered on a rolling basis.

Deadline for the Application

27 September 2017
