

# Tata – THE CITY OF LIVING WATERS AND WILD GEESE

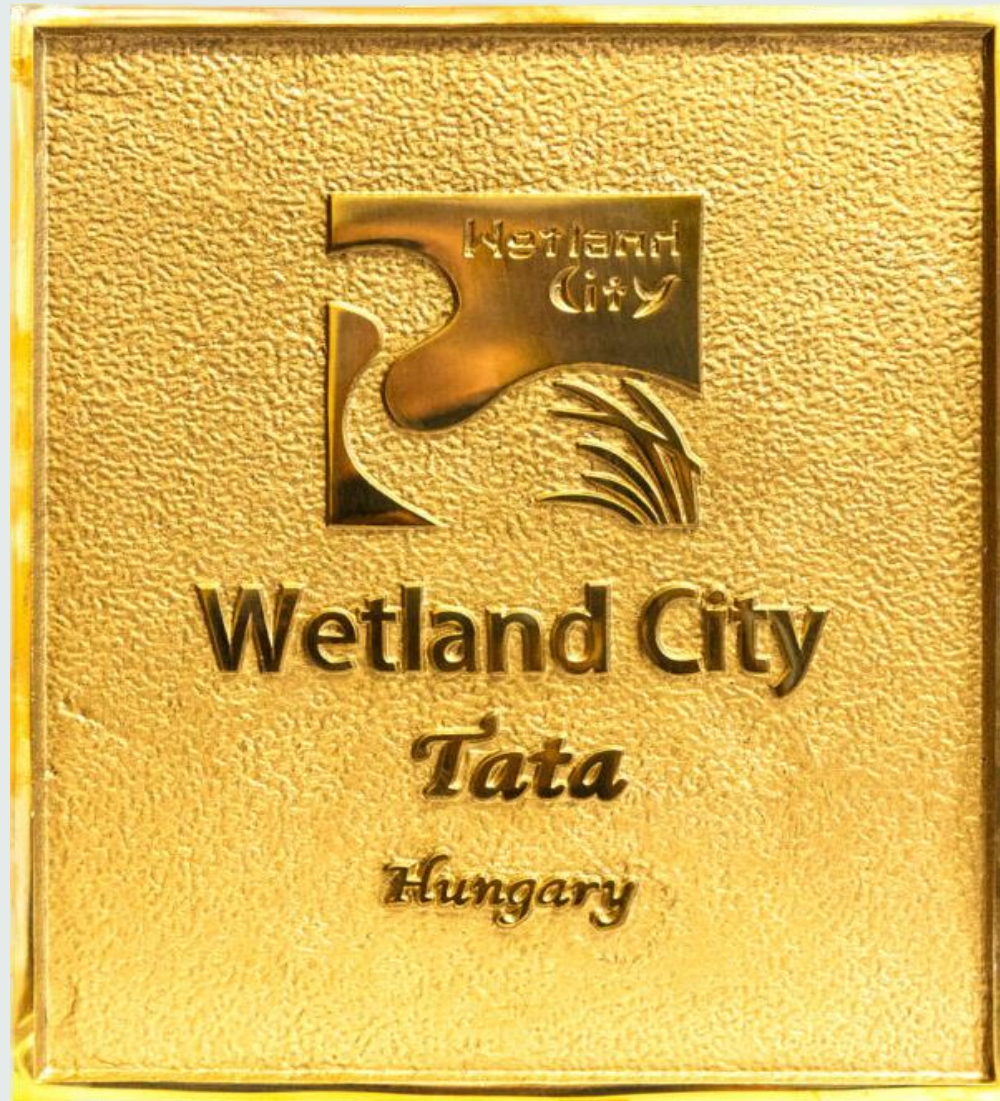

**Capital of Biodiversity  
(2010)**

**Hungarian Landscape Award (2013)**

Wetland City (2018)

# Old Lake

- 230 hectars
- More than 230 bird species
- New wetlands created in 2012
- Plan: a new wetland in the southeastern bay
  - biological filter field
  - recreational area
  - educational trail
- Ramsar Visitor Center

# Réti lakes

- Established in 1896
- 65 hectares
- Lake 8 was rehabilitated in 2015
- Difficult to maintain
- Plan: restore 7 lakes
  - 2 for fish farming
  - 5 for ecotourism and education

Thank you for  
your attention.

Balázs Rigó

Vicemayor of Tata
