TENDER

CEEweb for Biodiversity (1021 Budapest, Széher út 40., Hungary, registration no. 1634) makes this Tender for a study to be completed by 31st August 2020. Organisations and individual are both eligible to apply.

Subject of the tender: Study on the State of Farmland Biodiversity in Europe.

Summary of tasks to be performed: carrying out thorough research and preparing a study on the state of farmland biodiversity in Europe, the role it plays in food security and sustainable food production. The study shall provide a critical and detailed overview of how different elements of the Common Agricultural Policy (CAP) affect farmland biodiversity and how the two new strategies, namely the post-2020 EU Biodiversity Strategy and the Farm to Fork Strategy aim to protect and restore farmland biodiversity in Europe. The study should specifically discuss the status of pollinators and the relevant EU schemes to protect them from the adverse effects of agricultural chemicals. The study should also include a concise conclusion and policy recommendations.

Tasks to be performed:

Preparation of a study including the following key tasks:

- Research on the importance of farmland biodiversity in general
- Research on the status of farmland biodiversity in Europe
- Literature review of relevant resources on farmland biodiversity
- Literature review of relevant EU policies with a potential impact on farmland biodiversity (especially: CAP, F2F, Biodiversity Strategy)
- Research of relevant EU policies and initiatives with the aim to protect pollinators
- Prepare the study, with a conclusion and policy recommendations included.
